

## **Vbeam Special**

**Get a series of 3 Vbeam Full Face for only**

**\$810**

**(That's a \$90 savings)**

Vbeam is a brand of pulsed-dye laser (PDL) and is often referred to as a vascular laser because it is excellent at treating issues related to the body's network of blood vessels, such as broken capillaries, rosacea, port wine stains, small spider veins, strawberry hemangiomas, and poikiloderma. Vbeam can also be used to speed up the healing of any post-treatment bruising caused by other cosmetic or surgical procedures.

## Summer Recovery Microdermabrasion Facial Special

Get the summer recovery facial with microdermabrasion for

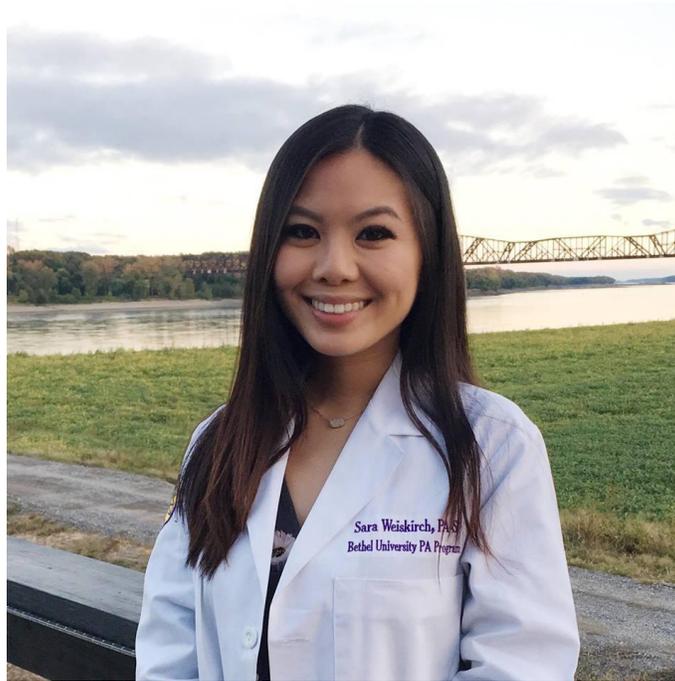

**ONLY \$130**

This facial includes and double cleanse, extractions, a light Pineapple enzyme exfoliation, a nourishing Lychee mask, face massage, and microdermabrasion. Victoria is here on Thursdays and Fridays from 9-5pm. This facial is valid in the month of August only. Please call 818-592-6005 to schedule your appointment.

**Pineapple Enzyme:** *With its distinctive prickly skin, spiky green leaves and sweet yellow flesh, the pineapple is a symbol of hospitality as well as a tasty treat. Like many fruits and vegetables, it can be just as nourishing on the body as in the body. Pineapple contains bromelain, a naturally occurring enzyme, which provides a gentle softening and brightening exfoliation. Feed your client's skin high amounts of Vitamin C that will quench their skin with age-correcting antioxidants which are vital to overall skin health. Vitamin C also offers another layer of protection us from the sun's harmful UV rays.*

**Lychee Nourishing Mask:** *This delightfully rich and sweet creamy mask contains Lychee a tropical fruit native to low elevation lands of China, Taiwan, and South East Asia. Lychee which means "gift for loyal life" surely lives up to its name. Lychee benefits have been tried and proven in countries such as China and India and have also been well documented in ancient Chinese books. The Lychee Nourishing Mask also contains a Summer Complex of SymCalmin®, to reduce heat rash, Vitamin C to address dark spots and Dermasyr10™ to manage breakouts.*

## Meet our New Team Member Sara Weiskirch PA-C

Sara Weiskirch is a California-licensed and board certified physician assistant. She was born and raised in Orange County and received her Bachelor of Biological Sciences degree from University of California, Irvine. She then earned her Master of Science degree in Physician Assistant Studies from Bethel University with a 4.0 GPA and received specialized training in plastic surgery and dermatology. She is an active member of the California Dermatology Physician Assistants Society and a fellow in the Society of Dermatology Physician Assistants. She is currently working to complete a diplomate fellowship through the Society of Dermatology Physician Assistants and strives to keep up to date with dermatological literature.

Her role as a physician assistant allows her to perform a history and physical, diagnose, and prescribe medications. She also is able to perform biopsies, excisions, laser treatments, and cosmetic procedures.

She is an avid lover of animals, cooking, live music, comedy shows, and traveling.

**eltaMD UV PHYSICAL  
Broad-Spectrum SPF 41**

*"I love UV Physical because it completely blocks the sun out. Being at the beach all the time I need a sunblock that protects my face from burning. I also love that it has a little tint and works like a light makeup. It makes me feel beautiful and protected."*
